

Enabling Vigilance · Defending Values · Protecting Virtue
since 2014

Introducing a filterable Android smartphone.

Welcome to the *VISION* phone!

- Running a modified version of Android 10
- Two models to choose from: the 220 and 420. Please visit our website or send us an email for phone specs and pricing
- Works on T-Mobile in US, works well in Canada, and compatible with many International carriers
- Beacon MDM to manage your phone settings and apps
- Vision Market app store—customizable for your church group or business fleet. Company owners can select the available apps for their devices
- DrawBridge Internet Content Filtering for the apps and browsers
- Subscribe to our Daystar Email Service

Disable the phone app and use the *VISION* phone as a mini tablet
Great for dairy and other farming apps, warehouse and inventory management apps, truck driver eLog apps, etc

It's a phone
It's a mini tablet
It's both
It's your call
