Who are we?

We are a small company from the plain community dedicated to providing you with a reliable email service with many benefits such as custom domains and unlimited email storage. We never make money off of your data or share your private information with third parties. We offer two types of email accounts—encrypted and normal. Read more about the two types of accounts below and let us know if you have any questions or if we can be of assistance to your family or business.

Encrypted Email Accounts

- ✓ **Automatic Encryption for Incoming Email**—All incoming emails bound for users of this service will have their emails automatically encrypted with their public OpenPGP key once the email arrives at our server.
- ✓ **Zero Access to User Data**—Your email messages are encrypted with an encryption key that we don't have access to. This means that we don't have the ability to decrypt your messages.
- ✓ **Open Source Cryptography**—This ensures that the encryption algorithms do not have a built in back door for access by some unknown entity.
- ✓ **Encrypted Mail Storage**—All user data is stored in an encrypted folder on our server.
- ✓ **Privacy**—Sensitive information such as User-Agent and X-Originating-IP are scrubbed from email headers.
- ✓ **Custom Domain Support**—Have us host you@yourdomain.com
- ✓ **Unlimited Email Storage**
- ✓ **IMAP or POP Access**—Works great on restricted internet connections.

Is this option for you?

Do you have sensitive information to communicate? If so, this option might be right for you. Feel free to call or email if you have questions about how this works.

Pricing

- ✓ **\$4.50/month** for an encrypted account with two mailboxes
- ✓ **\$4.00/month** for each additional mailbox
- ✓ **\$20.00** one-time setup fee
- ✓ **\$30.00** one-time setup fee for custom domains only

Normal Email Accounts

- ✓ **Encrypted Mail Storage**—All user data is stored in an encrypted folder on our server.
- ✓ **Privacy**—Sensitive information such as User-Agent and X-Originating-IP are scrubbed from email headers.
- ✓ **Custom Domain Support**—Have us host you@yourdomain.com
- ✓ **Unlimited Email Storage**
- ✓ **IMAP or POP Access**—Works great on restricted internet connections.

Is this option for you?

Are you a “normal” email user without special privacy needs? If so, a regular email account is the right choice for you.
